

Sprint Backlog

ID	Type	Description (User Story / Task)	Priority	Story Points	Assignee	Status	Acceptance Criteria
SB-01	User Story	As a student, I want to create and edit courses so that I can organize my assessments.	High	5	Team 11	To Do	User can add/edit/delete a course and see it instantly listed.
SB-02	User Story	As a student, I want to add assessment items (assignment / test / exam) to courses.	High	5	Team 11	To Do	Items saved with correct fields (name, date, weight %) and linked to course.
SB-03	User Story	As a student, I want to record my marks so that the system recalculates my current average.	High	5	Team 11	To Do	Mark entry updates course average automatically within 1 s.
SB-04	User Story	As a student, I want to view upcoming tasks on a dashboard to plan my week.	High	3	Team 11	To Do	Dashboard lists uncompleted items sorted by due date.
SB-05	Technical Task	Create low-fidelity UI mock-up (Dashboard / Course / Assessment pages).	Medium	2	Team 11	To Do	Wireframe includes navigation flow and consistent color palette.
SB-06	Research Spike	Evaluate frameworks for project front-end.	Medium	2	Team 11	To Do	Recommendation approved by team; decision logged in minutes.
